EC Certificate of Conformity

Certificate No.: 0005 – CPD – 2010

In compliance with 'Council Directive of 21 December 1988 on the approximation of laws, regulations and administrative provisions of the Member States relating to construction products (89/106/EEC)' (the Construction Products Directive or CPD), as amended by Directive 93/68/EEC of the Council of European Communities of 22 July 1993, it has been stated that the construction product

Kremsbarrier 3 RH2 on civil structures

Containment level:	H2
Working width:	W5
Impact severity:	B
Dynamic deflection:	1,34 m

Placed on the marked by

voestalpine Straßensicherheit GmbH
Schmidhüttenstrasse 5
Postfach 42
3500 Krems
Austria

And produced in the factory

voestalpine Straßensicherheit GmbH
Schmidhüttenstrasse 5
Postfach 42
3500 Krems
Austria

is submitted by the manufacturer to a factory production control and to the further testing of samples taken at the factory in accordance with a prescribed test plan and that the notified body No. 0531 –TÜV SÜD SZA Österreich Technische Prüf - GmbH - has performed the initial type-testing for the relevant characteristics of the product, the initial inspection of the factory and of the factory production control and performs the continuous surveillance, assessment and approval of the factory production control.

This certificate attests that all provisions concerning the attestation of conformity and the performances described in Annex ZA of the standard(s) or in the ETA (resp. in)

EN 1317-5:2007+A1:2008

were applied and that the product fulfils all the prescribed requirements.

This certificate was first issued on 16.12.2010 and remains valid with test report number 10150_Rev01/18/08/2011 and the annex as long as the conditions laid down in the harmonised technical specification in reference or the manufacturing conditions in the factory or the FPC itself are not modified.

For the construction product **Kremsbarrier 3 RH2 on
civil structures**

Placed on the market by **voestalpine
Straßensicherheit GmbH
Schmidhüttenstraße 5
A – 3500 Krems**

Modification 1: Fall protection:

**Approved on
18.08.2011**

A fall protection can be installed on the VRS. No additional drilling on the system must be performed. The functionality remains. The individual grid panels are connected with safety cables to prevent the complete detachment of the fall protection. The modification remains valid with the test report 15165/18/08/2011

Modification 2: Handrail:

**Approved on
11.02.2013**

The VRS may be extended by a handrail. No additional drilling on the system must be performed. The functionality remains. The detailed function of the handrail is described in the technical report that is part of the modification report. The modification remains valid with the test report 21628/11/02/2013.
